

KrisDeco

My font, KrisDeco, is a display font meant to be used in large sizes, and not in body text. In body text, the font loses detail and can be difficult to read. KrisDeco, is named from the designer's name, Kristyn, and the art deco period from the 1920 to 1930's period. Art deco was influenced by cubism, and like KrisDeco, was composed and shaped by geometric shapes.
